A technical drawing of a rectangular component. In the center is a large circular hole. Surrounding this central hole are seven smaller circular holes arranged in a specific pattern. Dimension lines indicate various distances: .115 from the center of the central hole to each of the four side holes; .885 from the center of the central hole to each of the two corner holes; .500 from the center of the central hole to the vertical edge of the rectangle; and 1.00 from the vertical edge to the rightmost corner hole. Arrows point from the dimension values to their respective measurement points.
